# FOI REQUEST NUMBER 125-2015

## Request and Response

We are only able to provide information relating to 2012 and the first three months of 2013. Post the 1st April 2013 commissioning of under 18 services transferred to NHS England who you would need to contact to obtain this data. The below response relates to Norfolk and Waveney patients only as Suffolk Clinical Commissioning Groups were responsible for funding Suffolk patients under 18 services prior to the 1st April 2013.

We do not hold information relating to the distance travelled between the patients home and the Provider. However, we have broken down the patients by Clinical Commissioning Group Areas, and provided the Providers postcode so you may calculate your own distances.

a) How many children (under 18) have you sent more than 100 miles away from their home address for mental health care inpatient treatment in 2012, 2013 and 2014?
