FOI REQUEST NUMBER 152 2015

Request:

- How many children aged 10 or under have received treatment for mild to moderate depression, stress or general anxiety disorder within the last five years in Suffolk (from April 2010 to present)?
- Can you provide a breakdown of how many patients were treated per year please, as well as the five year total for each of the above?
- Please be specific on the ages of the patients if possible.

(Response Below)

Response:**Number of Patients Treated Per Year**

Description	2010-2011	2011-2012	2012-2013	2013-2014	2014-2015	Total
Generalized Anxiety Disorder	17	11	6	7	5	46
Mild Depressive Episode	1					1
Moderate Depressive Episode	1					1

Breakdown of Patients Treated by Diagnosis and Age

Description	Age	2010-2011	2011-2012	2012-2013	2013-2014	2014-2015	Grand Total
Generalized Anxiety Disorder	6				1		
	7	1	1			2	
	8		2	1			
	9	9		2	1	1	
	10	7	8	3	5	2	
Mild Depressive Episode	10	1					
Moderate Depressive Episode	9	1					
Grand Total		19	11	6	7	5	

** Please Note - treatment received relates to where service user had an attended contact in year

The data relates to Children aged 10 or under at the time of contact.

If there was a contact for the same child in subsequent years this will count as a treatment in each year.

ICD10 codes used - F32.0 - Mild depressive episode

F33.0 - Recurrent depressive disorder, current episode mild

F32.1 - Moderate depressive episode

F33.1 - Recurrent depressive disorder, current episode moderate

F41.1 - Generalized anxiety disorder

It is worth noting that children may not receive a diagnosis in the early stages of their contact with the Trust so they are not given a "label" straight away which may change over time.
